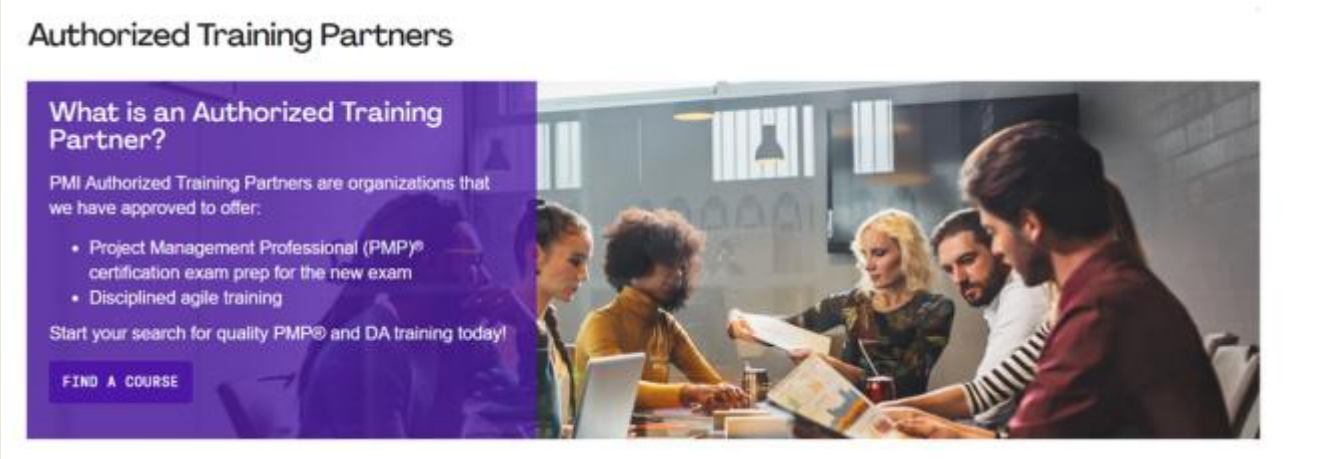
SKILLSOFT – AUTHORIZED TRAINING PARTNER (ATP)

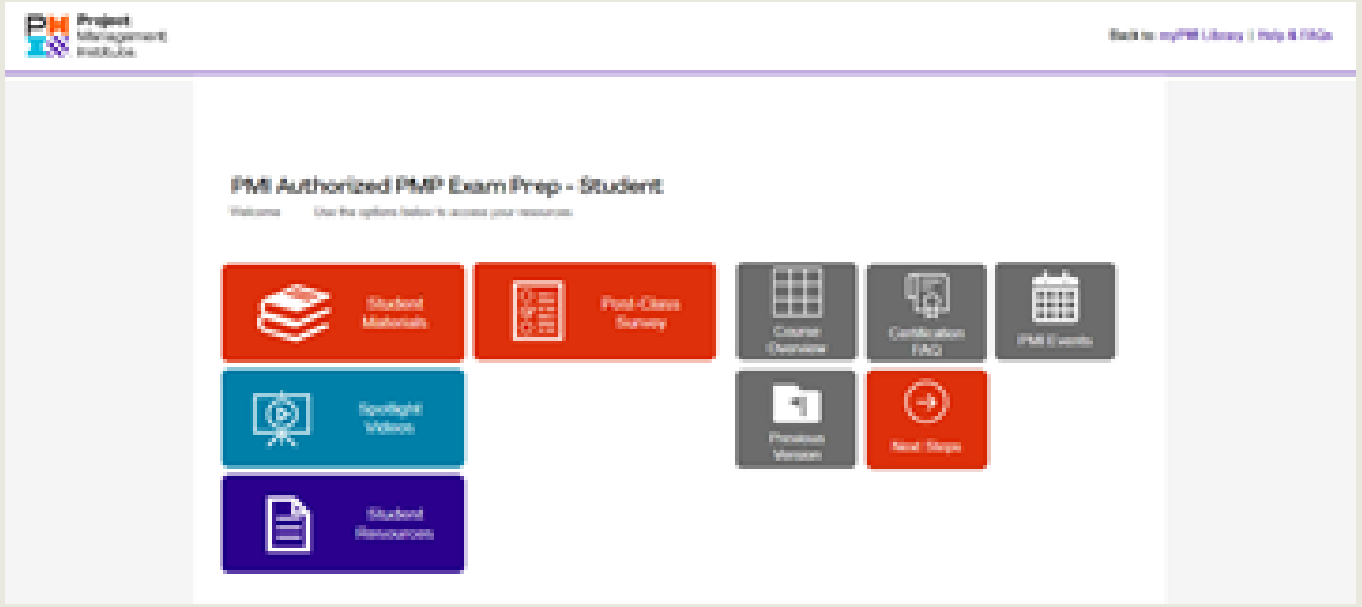
PMI ATPs are organizations that PMI has approved to offer exam prep training. Skillsoft is a PMI Authorized Training Partner (ATP)that offers the following exam prep training:

Project Management Professional certification



WHAT IS THE PMP LEARNER KIT?

What Skillsoft calls the PMP Learner Kit is the PMI Authorized PMP Exam Prep - Student course. This is produced and maintained by the Project Management Institute, or PMI, and it is tailored to the PMP exam. It includes a series of supplemental assets for your PMP studies, such as a student workbook, videos, and the PMI slides used in your PMP exam prep training Bootcamp.



IS THE PMP LEARNER KIT REQUIRED?

PMI requires that every student enrolled in an Authorized Training Partner (ATP) Project Management Professional (PMP) exam prep course must have a learner kit, regardless of whether they intend to sit the exam or not. Skillsoft's PMP Bootcamp is an ATP PMP exam prep course. As such, to meet PMI's learner kit requirement, Skillsoft requires all Bootcamp attendees to purchase a learner kit.

This can be purchased on the learner's behalf by their training organization or directly by the learner. Before purchasing on your own check with training staff to see if your organization will purchase it on your behalf through a separate process than if you purchase it on your own.

PURCHASE THE PMP LEARNER KIT ON YOUR OWN

If your training organization isn't purchasing the PMP Learner Kit on your behalf, you can purchase it using the URL below and selecting it from the PMP Products: field (not shown).

Before you make the purchase, be sure to read "all" the information on the actual web page. The Email ID you use to make a purchase needs to be the same email used for your PMI Account.
